Software developer - Driven to progress my experience and be challenged. I am passionate about learning and adding new skills to my knowledge, Proficient in JavaScript, React, React Native, Node.js, HTML, CSS, Mongo. Experienced in research, analyzing and solving complex code problems.

Experience

2021: **Two months internship** at Cardlatch Inc.
- building a React Native mobile app MVP for the company's access control application. I worked closely with the lead Frontend dev, who assigned issues, followed my progress and reviewed my code.
- Gained hands-on experience with React, React-native, JavaScript, TypeScript, REST API, MongoDB, Git, SQL, HTML5, CSS3, and JSON.

2018-2020: Marketing and coordinating meetings at Tuti Ashbel Law Firm.

Education

2020-2021: **Full Stack Developer Bootcamp** | Appleseed's Academy
An intensive 6-months, 720 hours training program that encourages self-led learning as well as group projects that simulate real-world development teams and encourage out-of-the-box thinking.

2016 – 2019: LL.B in Law | College of Management- Academic Studies.

Projects

Foddies: recipes app where you can search and find recipes based on your craving, and also buy all the products you need. My app was built with React Using external api, Js and css.

Bookit: hotels booking app, users can book and also post hotels for booking. The application involves frontend using React and backend using node and mongo db.

React native application: I developed in my internship, using TypeScript and mock api.

Military Service

2012-2014: Full Military Service, Providing technical support and troubleshooting through remote takeover for operational and intelligence systems. For this role I did a MATAN AMN course that provided me extensive technological knowledge and which required security clearance.

Volunteering

2017-2019: Mentoring teenagers with behavioural problems and criminal records at Yedidim Association.
